## Welcome to the Pinetum furniture collection....

...based in the UK, Pinetum's humble beginnings in pine bookcase manufacture has now led to it developing a well-deserved reputation as one of the UK's leading manufacturers of quality crafted and beautifully designed furniture.

Proud of its British manufacturing heritage, Pinetum occupies three factories on a 4 acre site in Warminster, Wiltshire with over 50,000 square feet of fully environmentally- controlled production space. Combining the skills of traditional craftsmanship with high tech manufacturing processes allows us to create furniture to a standard which is unsurpassed.

Pinetum's furniture collections range from the traditional pine furniture collections in our Tuscan and Roman ranges to very contemporary designs such as those found in the Quercus and Como ranges. Our philosophy of being led by design innovation and quality means that Pinetum's range caters for every home be it a modern city centre studio or a grand country house.

Each piece of furniture is made-to-order using only the finest raw materials. Only solid wood is used throughout each piece, which is assembled using traditionally crafted methods using dovetail and mortise and tenon joints throughout, with absolutely no use of chipboard, veneers, foils or MDF.

In today's world of predominantly imported products and variable standards, Pinetum prides itself on not only providing exceptionally designed, genuine top quality furniture manufactured right here in the UK, but also on the level of customer service it can provide to ensure that the pleasure of owning a piece of Pinetum furniture lasts as long as it does.

We hope you enjoy owning a piece of Pinetum furniture as much as we have enjoyed creating it.

## THE ZANTE COLLECTION

Taking its design cues from Pinetum's Oak Quercus collection is what gives this range its distinct and unique contemporary feel ideally matched to clean and uncluttered lifestyle.

Pinetum 5-3 Taper Leg Table (APTT530), Bretton Chairs with Leather Seat Pads (APSB003), Centre Drawer Sideboard (AKDB330) and Large 2 Bay Dresser with Glazed Top (AKDL210) in Victorian Lacquer Finish

## ZANTE COLLECTION : DINING

### Zante Dining Tables

All Pinetum tables have been manufactured to be common across all pine ranges and complement the contemporary styling of the Zante furniture collection beautifully.

A wide variety of table designs are available to complement every home. Many styles are available in extending versions to allow for increased seating whilst maintaining a small footprint. All extending tables are provided with a loose extension leaf. Most table models also allow the leaf to be stored away inside the table frame for convenience.

NB: 4-3 Extending Taper Leg Table, 4-3 Extending Farmhouse Table and 48" Extending Round Pedestal Table are supplied with loose leaves which do not store inside the table frame. All extension leaves are a standard 24" width apart from those supplied for 4-3 extending tables which are 12" wide.

All Pinetum dining tables come with chamfered tops as standard but are also available with Bullnose tops as an option.

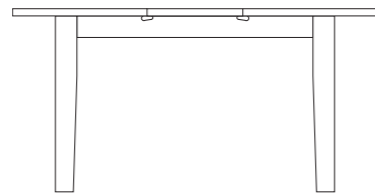

Please turn to page 36 for colour and finish options available for the Zante range.

Complement your Pinetum table perfectly by choosing from a wide variety of chairs, made from solid beech. For the full range of chairs available in the Zante range please see page 9.

### Zante Cabinets

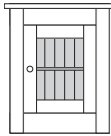

The solid-pine range of Zante cabinets (all with mortise and tenon door assembly) offers a vast array of units to choose from in a variety of different configurations; panelled, glazed and half-glazed to make the most of storage or to display your prized ornaments and collectibles.

Half-door cabinets provide storage solutions below an open-shelved bookcase, half-glazed units offer the security of having everything behind glazed and panelled doors whilst fully-panelled cabinets provide for completely hidden storage.

A deluxe option which includes low voltage lighting and fully adjustable glass shelving is available in Zante half glazed and half door cabinets.

NB: All line drawings for Zante glazed cabinets and Zante panelled cabinets show the units as glazed versions. Please note that all cabinets are also available with panelled doors.

ZANTE COLLECTION : LIVING

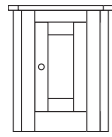

Zante Corner Units and Hall Tables

Zante corner units allow complete versatility while planning a room. These are available as single base units with the option of one or two doors, or tall units which are available with the choice of open, glazed or half glazed tops.

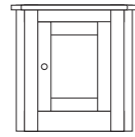

NB: The corner unit depth given is the distance required from the corner of the room to the front right and left corners of the unit.

The hall is often a difficult area to furnish and the Zante range of hall tables are the ideal addition for this oft-forgotten area of the house. With a minimal footprint, hall tables are ideal as telephone tables and include convenient drawers and shelf storage.

## ZANTE COLLECTION : KITCHEN

### Zante Breakfast Bars and Stools

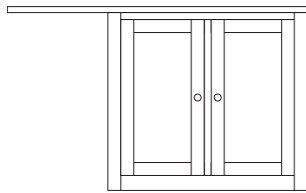

Personalise and enhance your kitchen with a contemporary styled Zante breakfast bar. These breakfast bars are extremely versatile as the top can be fixed in any position to create a breakfast bar that can either be free-standing or placed up against a wall depending on position and space available.

In 2 and 3 bay configurations both breakfast bars come with one internal shelf which is fully adjustable.

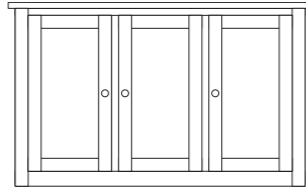

The Zante breakfast bar range can be perfectly complemented with bar stools from our collection. These are available with either solid beech seats or one of our fabric seat pad choices. For full range of seat pad options please see page 37.

## ZANTE COLLECTION : FURNITURE CARE

### Care for your Pinetum Furniture

It is important to remember that all Pinetum's solid pine furniture has been carefully produced using natural organic materials. The timber has been prepared specifically for use in the manufacture of interior furniture and has been slowly kiln dried to bring the moisture content down to 10 to 12%.

Average household humidity levels are between 8 to 12% depending on climatic conditions. It is therefore imperative that the furniture be kept in as warm and dry an environment as is practically possible. Storing the furniture in conditions outside of these levels will invariably cause a degree of movement and may create problems, particularly with doors and drawers.

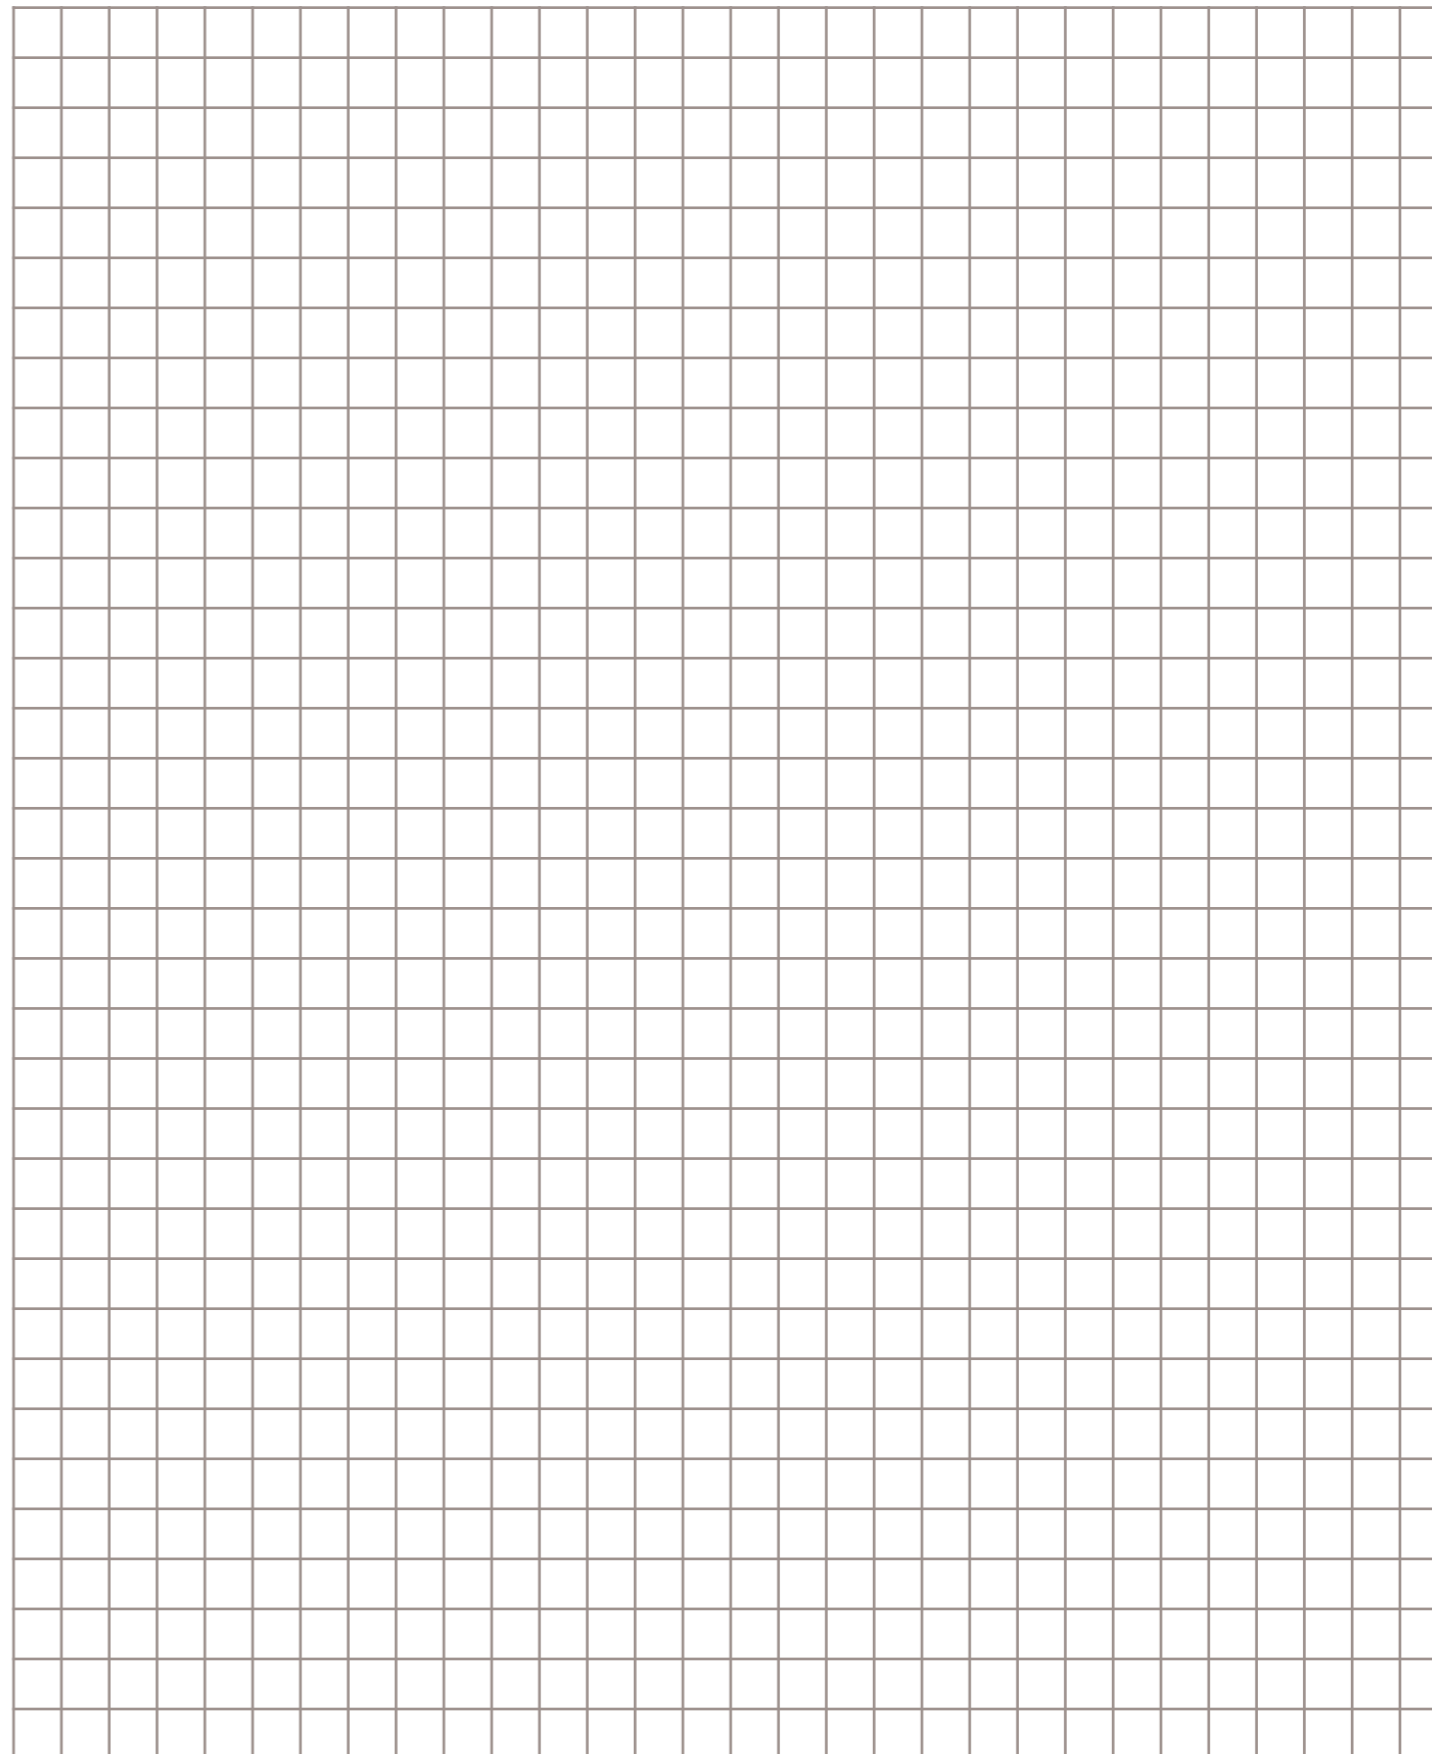

All Pinetum pine products are low maintenance and generally require no more than a little "TLC". Lacquered furniture requires the least maintenance, generally no more than cleaning with a good quality furniture polish. The waxed furniture requires a little more attention over its life span, but usually no more than occasionally re-waxing with specialist waxes available from your local pine furniture stockist. This is a simple task that can be undertaken at home by yourself and needs no special skill or instruction, your local pine furniture stockist will be more than happy to advise on the process and frequency of re-waxing. Be careful to ensure as close a colour match as possible to your furniture when purchasing wax products, again, your local stockist will be happy to advise.

Minor damage in the form of small scratches, dents and general wear and tear can easily be remedied using the Pinetum Furniture Care Kit available from Pinetum stockist. Major damage and breakages are best taken care of by employing the services of a local cabinet maker or joiner, alternatively you might enquire with the store from which you purchased your furniture about the possibility of a "return and repair".

NB - Never use chemical, abrasive materials or cleaners on your Pinetum Furniture.

For further information on all Pinetum product ranges please visit our website at [www.pinetum.co.uk](http://www.pinetum.co.uk)
